

*I'm back on air  
and back to  
golfing with no  
interruptions*

*“Since my spine surgery, I'm able to do  
the things I love without the pain.”*

Dave Fezler, Radio Personality

**Y**ou may not know his face, but chances are you know his voice. Dave Fezler is the man behind the microphone for Sunny 103.5's morning show and has been making listener's commutes more enjoyable for 12 years. However, in the fall of 2014, severe neck pain had him pressing pause on life.

From his golf game to his job, everything was suffering from the overwhelming pain. It was so bad that even just getting through his radio show was nearly impossible. It was time to do something about it.

Other surgeons told Dave that the type of surgery he needed could potentially damage his vocal chords, and for someone whose career is his voice – he wasn't ready to take that risk. That's when he came to Self Regional. Dave was able to receive the surgery he needed, but with the modifications he required.

Since his spine surgery, Dave's back to golfing and back on air with no interruptions.

**If back or neck pain is keeping you from doing what you love, call the South Carolina Spine Center (864) 725-0000.**
